**Portraits from Photos** - Learn to create beautiful portrait paintings from your personal photographs as you study facial features, proportions and color. Class follows Richard's book, *Painting a Portrait*, available in the Center for the Arts Turtle Gift Shop. New students or those who haven't painted in years, please consider taking *Oil/Acrylic Painting Fundamentals* to learn or review basic skills.

**Fundamentals Oil and Acrylic Painting** - There is a fundamental body of knowledge that all painters (beginning and advanced) should possess. This body of knowledge not only contains information on the techniques of drawing and painting; also information on the use, care, and safety of working with the tools of an artist. Designed to give both new and experienced painters the information they need to create beautiful paintings, focusing on creating the illusion of depth and volume using value and discussing color, the color wheel and complementary colors.

**Figure Drawing** - Each class will begin with a short lecture, a demonstration and a series of gesture drawings. Students will then begin a series of short drawings.

The objective of the class is to improve observation, technique and style rather than to have a completed masterpiece.

**Intermediate Painting - (Oil/Acrylic)** - Students will be guided through several small paintings – each painting will focus on a different genre: still life, landscape, portraiture, etc. The objective of this class is to provide students, familiar with my painting techniques, an opportunity to practice the lessons from my *Fundamentals of Painting* classes. We will discuss painting materials, styles and techniques. In addition, we will discuss photography and getting good images to paint.

**Advanced Painting (Oil/Acrylic)** - Take your painting to the next level. Each class begins with a brief review of a specific topic (color, materials, composition, value, etc.); then students work on their individual paintings. The goal of this class varies with each student's individual objectives. If you seek to improve basic skills, experiment with new techniques, or build a cohesive body of work—this class will address your particular needs.

*Richard studied illustration at Palomar College in San Marcos, CA and established his illustration business in Boston, MA. His fundamental belief about painting, shapes his work and his teaching: "Creating a painting does not make one an artist. Artists create something extraordinary from their experience, knowledge and ability. Until a painter has discovered and is able to pull instantly from these three primary conditions, he or she is a student. Still, taking pride in being a student moves you closer to creating art."*

TEENS are welcome with parental permission and interview with instructor.

**The Actor's Workout** - A series of physical and vocal exercises, impromptu live readings of plays and scenes, information sharing, as well as coaching and critiquing any prepared work brought in by students. **Acting 101** - Acting 101 is where to learn the basics of creating and performing characters. For beginners and those who want to refresh, review different styles of acting, stage basics and terminology and begin to explore this amazing craft. Students will be introduced to monologue preparation and scene work, empathy, characterization, motivation and critiquing the work of fellow actors as well as their own work.

**Actor's Master Class** - This intensive class is meant to hone the skills of experienced performers. The class focuses on monologue preparation and scene work. Students are expected to learn lines, perform characters they would not otherwise perform ("stretch"), give attention and thoughtful, supportive critiques to fellow students, and to learn the meaning of empathy for the characters they portray. Prerequisite: Interview and/or audition with the instructor. Acceptance is based on ability, but more importantly, potential.

**Welcome to the Writer's Room** - Each week, students will be expected to practice writing exercises and share their experiences and their words with the class. Learn about narrative, plot, structure, character, dialogue and style. There is work but also fun and joy to be had for any poet, playwright, novelist, columnist, blogger, technical writer, or anyone who simply wants to improve their written communications.
