

# MUSIC CLASSES

Monday, January 9 – Saturday, May 20 (19 weeks)

Our experienced instructors are all professional music educators and / or working musicians. Students learn their chosen instrument while also learning music theory and appreciation. The instructors help students take their technical abilities and musicianship to the next level. In our private lessons, we provide a stress free environment that is founded on encouragement for growth and a love for music.

## MUSIC LAB

This exciting music program is a unique environment that merges technology, instruments and adaptations of games into a kinesthetic and fun environment, where students learn all levels of music quickly and eagerly. Students use interactive boards, internet, music workstations and acoustic and electronic instruments while learning ear training, sight singing, composition, improvisation, music appreciation, performance and production. Our classroom is an engaging playground that uses the natural ability of young minds to learn languages, foster attentive listening and encourage cooperation.
